CONSENT

*(CATI ONLY)

CONSENT   This interview will take about 20 minutes, depending on your answers.

The interview mainly covers **other** people's drinking and its effects on you. It includes questions about your well-being and relationships, as well as basic information, such as your age, education. occupation, and some questions about your drinking. You do not have to answer any questions you don't want to.

Your participation is voluntary and your answers will be completely confidential, except in situations where we have a legal obligation to divulge findings to third parties, which may include law enforcement bodies. You are free to withdraw from the interview at any point in time without any consequences.

IF NECESSARY: Findings from this study will be used to plan treatment and inform alcohol policy across Australia (but there are otherwise no direct benefits for you).

IF NECESSARY: You will be asked about the drinking of those close to you and whether this has negatively affected you in some way.

IF NECESSARY: Do you have any questions about the interview? (INTERVIEWER ADDRESS ANY OTHER RESPONDENT QUERIES OR CONCERNS FROM Q&A SHEET)

Before we continue, can I just confirm, do you verbally consent to participate in this interview?

1. Yes (Continue)

2. Selected respondent refusal (GO TO RR1)

*(CATI ONLY)

ASSIST At the end of the interview, if you need any assistance, I can provide helpline details. I can give you these details at any time throughout the interview as well. If you decide to end the interview early, I can give you the helpline details then. And if you need to, please move somewhere where you will feel comfortable responding.

*(ONLINE)

PRE_ONLINE   This survey will take about 15 to 20 minutes, depending on your answers.

The survey mainly covers **other** people's drinking and its effects on you. It includes questions about your well-being and relationships, as well as basic information, such as your age, education. occupation, and some questions about your drinking. You do not have to answer any questions you don't want to.

Your responses will be de-identified, held in the strictest confidence and will not be disclosed to other organisations for marketing or research purposes. The responses of everyone who participates in this survey will be combined for analysis.
