

Instructions for identifying major alcohol control policies:

Starting on 1.1. 2000, please list all MAJOR alcohol control policy implementations in your country and use the attached EXCEL spreadsheet.

Considerations:

Financial policies

- Any increases in **excise taxation** which reduced overall affordability of alcohol (would be great to list the changes in affordability if possible)
- Any decreases in **excise taxation**
- Any other major financial policies

Availability:

- Any significant change in off-trade or on trade purchasing hours
- Any changes in legal purchasing or drinking age
- Any changes resulting in increased or decreased density of outlets
- Any other major availability policies (e.g., market changes increasing availability)

Marketing bans:

- Any ban of marketing and advertisement

Drink-driving laws:

- Any major changes in drink-driving laws

Screening and brief interventions:

- Any measures which would be related to major changes in screening and brief interventions

Unrecorded consumption:

- Any policies which would significantly change the level of unrecorded consumption

Please list only major implementations of alcohol control policies which you believe could change the level of alcohol consumption, or which could stop an ongoing trend in level of alcohol consumption.
